

Healthy Volunteers Needed

A research study at the National Institutes of Health (NIH) in Bethesda, Maryland seeks to learn more about the role of our genes in how we perceive taste.

You may be eligible if you:

- Are 18 or older
- Have no medical conditions
- Do not smoke
- Have no problems with your sense of taste

The study involves:

- 1-2 study visits, each lasting about 30 minutes
- Taste testing different solutions
- Providing about 1-2 teaspoons of saliva for DNA collection
- Compensation for being in the study
