

HAVE YOU HAD A SUDDEN,  
SEVERE, LIFE-THREATENING  
**ALLERGIC REACTION**  
**(ANAPHYLAXIS)?**

If your anaphylaxis has no known cause, you may have idiopathic anaphylaxis (IA) and may be eligible for an important clinical research study being conducted at the National Institutes of Health in Bethesda, Maryland.

**INVESTIGATIONAL TREATMENT STUDY**  
**(REFERENCE 09-I-0129)**

The purpose of this study is to find out if omalizumab, a medication currently FDA approved for us in asthma, can reduce IA episodes.

You may be eligible for this study if you are:

- Between 18 and 70 years of age
- Have at least 6 episodes of anaphylaxis a year

For more information, call **1-800-411-1222** (TTY: 1-866-411-1010)  
Se hable Español or visit the study web page at [www.niaid.nih.gov/Volunteer](http://www.niaid.nih.gov/Volunteer)  
(search for idiopathic anaphylaxis)
