

# Healthy Volunteers Needed

The National Human Genome Research Institute of the National Institutes of Health (NIH) is seeking healthy adults to participate in a research study.

Doctors want to study the chromosomes in healthy individuals so they can learn more about why some people develop chromosome abnormalities and some do not.

**Eligible participants:**

- Are healthy
- 18-55 years old

**During the study, you will:**

- Have one outpatient visit that will last about four hours
- Have a physical exam
- Have bloodwork and two skin biopsies
- Receive compensation for your participation

**Location:** The NIH Clinical Center, *America's Research Hospital*, is located on the Metro red line (Medical Center stop) in Bethesda, Maryland.
