A Novel Form of an Autosomal Dominant Vacuolar Hereditary Myopathy
- Dr. Jose Franco Chaves (NIMH):
Course of Improvement in Depressive Symptoms to a Single Intravenous Infusion of Ketamine vs. Add on with Riluzole
- Dr. Christopher Grunseich (NINDS):
An iPS cell system for mechanistic and therapeutic studies of motor neuron disease
- Dr. Eric Hanson (NIAMS):
Discovering Molecular Mechanisms of NF-kappaB regulation through forward genetics of NEMO Syndrome
- Dr. Christopher Heery (NCI):
Intraprostatic PSA-TRICOM vaccine administration in patients with locally recurrent prostate cancer
- 1:45 PM: Break
- 2:00 – 3:00 PM Tour of NIH Clinical Center
- 3:00- 3:15 PM Break and relocation to Natcher Conference Center for NGSRC

Natcher Conference Center, Room E1/E2

- 3:15 – 4:00 PM NGSRC Keynote Scientific Presentation:
How to Build a Dog: Genetics of Complex Traits in the Canine
Elaine Ostrander, PhD

National Human Genome Research Institute

Natcher Conference Center, Room C1/C2

- 4:00 – 5:00 PM Concurrent /Former Clinical Trainee Career Panel Discussion
- Moderator: Kelly D. Stone, MD, PhD
 Allergy & Immunology Fellowship Training Program Director
 National Institute of Allergy and Infectious Diseases
- Panelists:
- William A. Gahl, MD, PhD
 Clinical Director, National Human Genome Research Institute
 - Terry J. Fry, MD
 Investigator, Pediatric Oncology Branch, National Cancer Institute
 - Nicole Gormley, MD
 Medical Officer, Food and Drug Administration

Natcher Conference Center, Room E1/E2

- 5:00 – 5:30 PM Closing Remarks and Program Evaluation
- Michael M. Gottesman, MD
 Deputy Director for Intramural Research
 Office of the Director, NIH
- 5:30- 6:00 PM Break and Relocation to NIH Clinical Center

NIH Clinical Center, 1SE Patio

- 6:00 – 7:00 PM Program Evaluation and Closing Reception (with Residency/Fellowship Training Program Directors and Clinical Fellows). All participants welcome!
